

Sean Borman

Minneapolis Cobras

2019 MVP

Class A

In his own words: It's a tournament to remember because that is the Cobras first state title ever in our town ball organization. It was a pretty special moment to win the title with a great group of guys coming together collectively for the full weekend. It's something that I don't think we'll ever forget because you know how hard it is to even make it to the state tournament not to mention win it. Something special for sure.

What I remember from the weekend is the last game against Minnetonka, we were down 4-0 in the first inning. It's always hard to come back from a deficit like that in the first, but we were swinging the bats really well that weekend and came out on top. We tied the game in the first inning with a three-run home run by the other co-MVP Mason Reinhart and then I tied it with a solo home run to make it 4-4. That's one of the moments that really stuck out. We never let a lead really determine who we were that tournament.

It was just one of those weekends where you do the same thing every day. You take the same amount of hacks in the batting cage, you eat the same breakfast, you listen to the same music. It was just one of those weekends where everything just clicked and fell into place. I wouldn't have had that weekend without the support from everyone else getting hits and on base and doing what they needed to do. For me to have that was more of a collective team gathering that weekend.

I started playing with the Cobras in 2014 so this is my eighth year with them. The only reason why I joined the Cobras is because of my older brother Matt, who was with them prior to me joining. He was actually the one that got me involved in town ball and the Cobras. It's something that was really special to the both of us. He's seven years older than me. He played for awhile and now he retired so those moments that we had for the last three or four years are something that we'll cherish for a long time.
